

Impact Biometrics is coming to Liberton High School

Biometrics and Security

Students, parents and staff can rest assured that the fingerprint images cannot be used by any other source for identification purposes. The system uses an image of the finger to create a mathematical algorithm and then discards the finger image; only the numbers remain and these cannot be reinterpreted back into a finger image.

The future is in your hands!

Frequently Asked Questions

Why do you need to take my finger image?

By taking an image of your finger we can turn this information into a digital signature.

Can finger images be used by any other agency?

No, the software we use turns your finger image in to a mathematical algorithm. The image of the finger is then discarded. The information that is stored cannot be used to recreate an image of your finger.

What happens when you leave the School?

When students leave school their digital signature will be deleted.

How does it work?

When you place your finger on the scanner, the software matches your finger image with the unique digital signature held in the database.

Impact Biometrics Opt-In form

I **do** wish to be included in the Impact Biometric registration process

Name of Pupil: _____

Year: _____

Class: _____

Signed _____

Please fill in this form and return to the school office by Friday 3 November 2017.
